ABOUT ME

Senior UX Designer at Figma with 7 years of experience designing developer tools and design systems used by 8 million professionals worldwide. Combines deep expertise in interaction design, accessibility, and user research to deliver products that developers and designers love. Frequent contributor to the Figma Community with 120,000+ resource downloads.

EDUCATION

Royal College of Art, London

M.A. Interaction Design

2015 – 2017

Hochschule für Gestaltung Offenbach

B.A. Visual Communication

2011 – 2015

EXPERIENCE

Senior UX Designer — Figma

Berlin | Nov, 2019 – Present

- Redesigned Figma's component properties panel — adopted by 4M+ users and rated the most-requested feature ship of 2023 in user surveys.
- Led UX for Figma's Dev Mode product, bridging the design-to-code handoff gap for 500,000 developer users.
- Defined and maintained Figma's internal design system (Grail) used across 15 product squads.
- Conducted 200+ user research sessions per year; synthesized insights into quarterly design strategy briefs presented to C-level.

UX Designer — Zalando

Berlin | Jul, 2017 – Nov, 2019

- Redesigned the checkout funnel for Zalando's mobile app (30M MAU), reducing cart abandonment by 14%.
- Built and shipped a unified design token system across Android, iOS, and web platforms.
- Received Zalando's 'Design Excellence Award' 2018 for outstanding contribution to product quality.

PROJECTS

Figma Community — Free Design System Kit

- Published 'LayerBase', a production-ready Figma design system kit with 800+ components — 120,000+ community downloads.
